Anchor Environmental, L.L.C  
6650 SW Redwood Lane, Suite 333  
Portland, OR 97224  
Phone: 503-670-1108 x19  
Fax: 503-670-1128

This communication is made under the framework of the LWG Participation Agreement and in the parties' common interests in meeting LWG member obligations under the Administrative Order on Consent and in anticipation of litigation concerning liability for the Portland Harbor Superfund site. This communication is intended and believed by the parties to be part of an ongoing and joint effort to develop and maintain a common legal strategy and contains strategies, work product and legal advice within the "common interest" extension of the attorney-client privilege and the work product doctrine. This communication may include attorney-client communications. With respect to communications by private LWG members to public members, those communications are with the expectation that they will be kept confidential by the public entities. The information is intended to be for the use of the individual or entity named above. If you are not the intended recipient, please be aware that any disclosure, copying, distribution or use of the contents of this information is prohibited. If you have received this electronic transmission in error, please notify us by electronic mail at [voster@anchorenv.com](mailto:voster@anchorenv.com) <<mailto:voster@anchorenv.com>> .

Subject: Select Points of Clarification on EPA's January 15 Round 2 Report Comments

Hi Valerie/Jessica

Please transmit the attached file and message below to EPA to support the meeting today. Thanks! Christine.

Dear Chip and Eric,

The attached file is a compiled draft list of requested clarifications regarding EPA's Jan 15 Round 2 Report Comments to facilitate progress on review/resolution of the comments. The list is organized to parallel EPA's comment presentation (general comments followed by report Section comments). Note: The numbers on the clarification items do not indicate any priority and are included only provided to track progress as we walk through the document during the meeting today. Also note: There are no eco risk clarifications included; any need for clarification on this topic will be provided following consideration of EPA's problem formulation and additional comments.

Thanks! Please let me know if you have any questions. I look forward to the discussion later today.

Thanks,

Christine.
